Tent Set Up Instructions

- 1. Have two people grab the frame from opposite corners and pull outwards carefully
- 2. Put the canvas tent top over each of the four corners of the frame
- 3. Push up on the top of the frame until you hear a "click"; the click means that it is in place
- 4. Pull all four of the legs out so that they are extended all the way (or to the height desired)
- 5. Velcro the tops of the canvas tent sides to the metal tent top
- 6. Use the small velcro straps at the end of each wall section and strap them around the tent frame
- 7. Zip the four tent walls together with the zippers at the top
- 8. Unzip the two zippers on the front wall of the tent and roll up for an entrance.

If you need more than the above instructions, you can watch a video detailing the process at:
